About the Book

Middle Atlantic Prehistory: Foundations and Practice provides a basic survey of Middle Atlantic prehistoric archaeology and serves as an important reference for situating the development of Middle Atlantic prehistoric archaeology within the present context of culture area studies. This edited volume is a regional, historic overview of important themes, topics, and approaches in Middle Atlantic prehistory; covering major practical and theoretical debates and controversies in the region and in the discipline. This book is a much-needed synthesis and historical overview for academic and cultural resource archaeologists and independent scholars working in the Middle Atlantic region in particular.

About the Author

Heather Wholey, PhD, is a professor of anthropology at West Chester University. She is an archaeologist with a specialization in the prehistory of the Eastern Woodlands.

Carole L. Nash, PhD, is an associate professor at James Madison University. She is also the director of the Shenandoah National Park Environmental Archaeology Program.

Praise for the Book

“It is difficult to capture the status of regional archaeology in a single volume. The eclectic compilation by Wholey and Nash dealing with the Middle Atlantic will whet the reader’s appetite for more.”

— **R. Michael Stewart, associate professor emeritus, Department of Anthropology, Temple University; archaeologist, New Jersey Historic Preservation Office**

“While some critics may contest the idea that the Middle Atlantic region is a valid cultural or environmental construct, no one will disagree that the contributions to this volume effectively document not only the great aboriginal time depth and, subsequently, very long human occupation of this archaeological province but also the great diversity of scholarly approaches currently employed to characterize and understand that long-term occupancy.”

— **J.M. Adovasio, PhD, DSc, director of Archaeology, Harbor Branch Oceanographic Institute, Florida Atlantic University**

“A stimulating and informative reader detailing the history and practice of archaeology directed to the Native peoples of the Middle Atlantic region in recent decades, providing a useful series of topical syntheses encompassing many of the facts and lessons learned.”

— **David G. Anderson, University of Tennessee; co-author (with Kenneth E. Sassaman) of *Recent Developments in Southeastern Archaeology: From Colonization to Complexity***
